

ACANA
EVERY INGREDIENT MATTERS™

ZAIN FROM HAMBURG, PA

**NUTRITION
THEY NEED.
FLAVOUR
THEY LOVE.**

MADE BY PET LOVERS
FOR PET LOVERS

ACANA's Biologically Appropriate foods feature ranch-raised meat, free-run poultry, and freshwater or wild-caught fish with nourishing ratios of meat, organs, and cartilage or edible bone. Our recipes deliver nutrients naturally, with farm-fresh ingredients and real, protein-rich meat, so your cherished dog's diet is loaded with nourishment. Just like you, we want the best for your pet, to keep them happy and healthy.

INGREDIENTS WE LOVE

DELIVERED BY PEOPLE WE TRUST

A Biologically Appropriate diet means mirroring the richness, freshness, and variety of WholePrey meat that dogs have evolved to eat. Our Fresh Regional Ingredients are raised and supplied by people we know and trust, and are delivered fresh or raw, directly to our kitchen.

TRANSITIONAL FEEDING

Transitional feeding is when you're switching your dog from one food to another. This should be done slowly, giving your dog's body time to adjust. A gradual incorporation of a new food helps prevent stomach upsets, so adding it in 25% increments can make this transition smooth and comfortable.

ROTATIONAL FEEDING

Rotational feeding is beneficial for your dog in many ways. It mimics their ancestral diet, helps support a strong gastrointestinal environment, and provides your dog with a variety of flavours. ACANA gives you the opportunity to offer your dog different recipes from the same family of foods, such as alternating between Regionals Grasslands and Wild Prairie. With similar ingredients and nutritional levels, rotating recipes is easier on their stomachs. To rotate, simply mix different ACANA flavours as often as you wish—every day, every week, or by the bag. Your dog will thank you for it.
